

Family Futures Referral Process (Nov 2018)

Referral Form and Background Information
This information will be reviewed and a risk analysis undertaken.

Neuro Physiological Psychotherapy Multi-Disciplinary Assessment

This assessment is a child assessment, during which there is a Story Stems Assessment/Child Attachment Interview as well as a Social Atom, Theraplay MIM Assessment, and parent session. A sibling dynamics assessment will also take place if more than one child is involved. This assessment will also include the administration of a range of psychological screening tools. A report drawing conclusions and making recommendations will then be disseminated.

The cost of this assessment for one child is £2,500. The cost for an additional birth child is £800.

Specialist Additional Assessments

Specialist additional assessments are:

- Psychiatric Assessments
- Cognitive Assessment
- Paediatric Consultation
- Sensory Integration Assessment
- School Observation

The standard cost of each of the additional assessments/consultations above is £2,400.

A school observation ranges between £800-£1600 (depending on where the school is). There would also be travel costs applied.

Currently the ASF will fund aspects of these assessments so please contact us if you would like to discuss this further.

Multi-Disciplinary Treatment Programme

This holistic Multi-Disciplinary Treatment Programme is a comprehensive long term programme of multi-disciplinary intervention. The programme is based on the Family Futures Neuro Physiological Psychotherapy model and looks holistically at the child's needs as well as the family's needs. This programme is appropriate for complex high risk children and will require ASF and local authority matched funding. It may also be funded by health authorities and an EHCP.

Theraplay Treatment Programme

This programme includes 15 Theraplay sessions with the child and parent (these sessions vary in length depending on the age of the child and their ability), 5 parent sessions (1 hour long), a minimal level of telephone and email liaison, and a closing summary letter.

The cost of this Theraplay Treatment Programme, which can either be weekly or fortnightly, is £5,000.

Sensory Integration Treatment Programme

This is an Occupational Therapy Sensory Integration Treatment programme.

It includes 14 Sensory Integration treatment sessions (1.5 hours long). Some of these sessions would be parental sessions including feedback sessions. It also includes a minimal level of telephone and email liaison. There would then be a closing summary letter and sensory diet.

The cost of this Sensory Integration Treatment Programme is £5,000.

Dyadic Developmental Psychotherapy (DDP) Treatment Programme

This programme includes 12 DDP sessions with the child and parent (1.5 hours long), 3 parent sessions (1.5 hour long), and minimal telephone and email liaison. There is then a closing summary letter.

The cost of this DDP Treatment Programme, which can be weekly, fortnightly, or monthly, is £5,000.

Creative Therapy Treatment Programme

This programme includes 12 Arts Psychotherapy sessions with the child and parent (1.5 hours long) and 3 parent sessions (1.5 hours long). There is then a closing summary letter.

The cost of this Arts Psychotherapy Treatment Programme, which can be weekly, fortnightly, or monthly, is £5,000.
