How Can Family Futures Help Me?

A guide for young people who have been adopted

Welcome to Family Futures!

Family Futures is a post adoption therapy and support service.

We help children who have been adopted feel safer and happier in their adopted family.

At Family Futures we know that life can be difficult, sad, and scary when you have been adopted. We know that children and young people often have lots of questions and things that they're not clear about.

The staff at Family Futures are here to help you share your questions and feelings with us and with your adoptive parents and to understand what it means to be adopted.

It is usual as a young person to want to understand more about your life story as part of working out who you are and who you want to be.

We know that it is not easy thinking about your world and your life story, and that it can be hard to trust people.

We also know that children who have had difficult starts in life are survivors.

They are strong and deep down want things to be better.
